## 02 Drone Video & Photography

### Drones have more uses than you realize

Real estate drone photography for real estate agents can show potential buyers a variety of things, including:

- Encompassing aerial views of the entire property and land.
- What the drive home or the kids' walk to school looks like.
- The neighborhood and surrounding area.
- Property maps and surveys.

## 03 360° Virtual Walkthrough

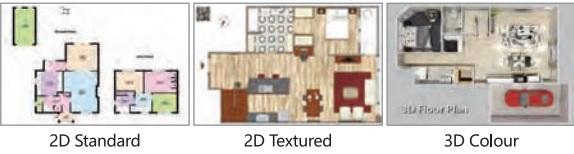

A Virtual Tour is a full-colour 360° view of an interior or exterior of a property. They immerse you in the space giving you almost the same experience as if you were actually standing in the room. Our tours are interactively controlled by Java or Flash, so no additional software or plug-ins are required to view a tour.

## 04 2D / 3D Floor Plans

Site Plan (2D Colour)

2D Standard

2D Textured

3D Colour

A floor plan is a scaled diagram of a room or building viewed from above. The floor plan may depict an entire building, one floor of a building, or a single room. It may also include measurements, furniture, appliances, or anything else necessary to the purpose of the plan.
